

NAISH

STEALTH

SIZES: 4.2 – 12.5

On April 10, 2005, Finian Maynard set his second consecutive absolute sailing speed record, averaging 48.7 knots down a 500 meter course on a production Stealth 50. The new Stealth is the latest refinement of this design. For 2006, the leading edge has been re-designed to increase control and entry stability, and incorporate the new Naish SNAPCAM™.

Using Naish Sails proprietary software, the entire sail has been re-engineered for lighter weight and improved durability, and every size has been tested and refined as part of the Naish team's ongoing effort to continue producing the fastest sails on the water.

PERFORMANCE CHARACTERISTICS

- The fastest sail on the planet
- Engineered for maximum strength and light weight
- Great new look and Naish quality

WHAT'S NEW IN DESIGN

- Re-engineered Wide sleeve for no-compromise performance
- New easy-rigging SNAPCAMs
- Computer faired luff curve and shaping for absolute maximum performance

WHAT'S NEW IN CONSTRUCTION

- X-ply construction in critical load areas.
- 4/5 Cams, Tube/rod battens
- Naish quality construction features for lasting value

TECHNICAL FEATURES

COMPLETE PACKAGE

The Naish Stealth comes with:

- Naish zippered sail bag with pocket
- Batten Tensioner Key
- Key chain
- Sticker
- Repair tape
- Batten extenders
- Rigging instructions
