Performance

Pure speed is back! Naish is proud to introduce an all new range of boards that perfectly complement our Stealth sail range, current holder of the sailing absolute world speed record. Extremely light weight and blisteringly fast, the slalom boards are designed for control and easy sailing while the Speed Pro 60 single-mindedly targets breaking the production board speed world record. The new construction delivers the lightest, stiffest boards we've ever made.

Design

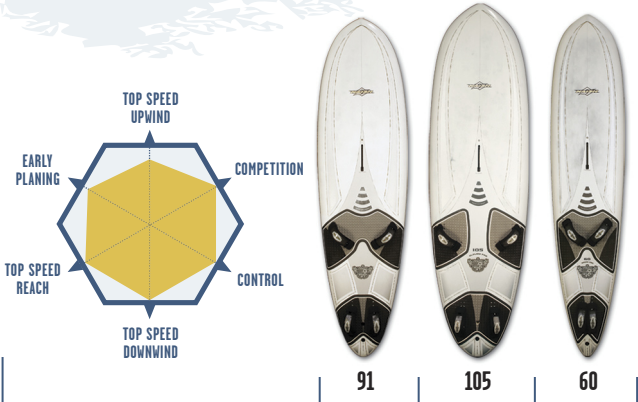

- New rocker line combines a loose feel with maximum control
- Beveled nose bottom for riding stability at high speeds
- Aerodynamic nose rail flow
- New volume distribution incorporates a thinned out concave nose section

Construction

- Double sandwich
- TT Carbon deck
- TT Carbon bottom
- Super sanded paint finish to minimize weight

Technical Features

- New special cubic structure footpads to increase stance comfort and traction
- New ergonomic foot strap with no-twist washer
- Deck material reveals
- Tuttle box for increased fin fit and support
- CNC cut high performance slalom fin
